

LAB SUPERVISOR

Quadrant Biosciences is seeking Lab Supervisor for a new lab created by an existing and well-established lab family for a high throughput, EUA approved COVID-19 testing. The Lab Supervisor will oversee day-to-day management of their COVID-19 testing and personnel in their CLEP accredited facility in Buffalo, NY.

Looking for a chance to apply your management skills in an exciting lab? READ ON!

Responsibilities

- Perform and provide oversight for all clinical lab testing, reporting results according to protocols mandated by the Lab Director and public health departments.
- Maintain medical laboratory equipment performance by establishing quality standards.
- Developing operational quality and troubleshooting procedures.
- Certify instrument performance and arrange for equipment replacement, service, and repair.
- Maintain, order, and verify all needed medical laboratory supplies inventory.
- Maintain quality results by participating in seeking out all available resources.
- Adjust policies and procedures as needed.
- Provide required reports and records to key personnel.
- Manage, maintain, and apply improvements to LIS.
- Provide all key oversight to staff including hiring, training, daily supervision, evaluations, opportunities for performance improvement, and compliance.
- Manage lab productivity by monitoring workload of functional areas and adjust staff as needed based on volume.
- Maintain lab safety, security, and confidentiality.
- Implement new programs, tests, methods, instrumentation, and procedures by investigating alternatives; preparing proposals; developing and performing parallel testing; monitoring progress.
- Bill for services rendered.
- Other duties and responsibilities as assigned.

Minimum Preferred Profile

- Bachelor's degree in Medical Lab Sciences or related field
- 6+ years of clinical laboratory experience
- Supervisor level (or higher) experience required
- NY CLS License
- ASCP or AMT certified preferred
- Molecular and Covid experience a plus

Salary and Benefits

- Competitive salary commensurate with education and experience
- Additional bonus structure
- Full benefits
- Relocation assistance

About Us

Quadrant Biosciences is a life science company developing functional assessments and molecular diagnostic solutions for large-scale health issues. The company has entered into collaborative research relationships with a number of institutions including SUNY Upstate Medical University and Penn State University to explore and develop novel biomarker technologies with a focus on Autism Spectrum Disorder, concussion, and Parkinson's disease. Recently, it has leveraged its expertise in RNA analysis to address the Covid-19 pandemic. Quadrant participates in the Start-up NY program, a New York State economic development program. For more information about Quadrant, please visit www.quadrantbiosciences.com.

It is the policy of Quadrant Biosciences to provide equal employment opportunity (EEO) to all persons regardless of age, color, national origin, citizenship status, physical or mental disability, race, religion, creed, gender, sex, sexual orientation, gender identity and/or expression, genetic information, marital status, status with regard to public assistance, veteran status, or any other characteristic protected by federal, state or local law. In addition, Quadrant Biosciences will provide reasonable accommodations for qualified individuals with disabilities.
